Owners' Message

Abdullah Mubarak Al-Khayareen

Shareholder

As a Qatari entrepreneur, I have always considered it my mission to expand trade relations with neighboring countries and to strengthen international cooperation. I firmly believe that developing non-oil exports and moving toward economic self-sufficiency is the sustainable path to growth and prosperity for our nation.

Our company, with a focus on producing environmentally friendly products and building innovative ecosystems, strives to set an example of modern entrepreneurship in the region. Our goal is not only to enhance Qatar's position in international trade but also to play an active role in connecting nations through joint and sustainable partnerships.

Mehdi Feizbakhsh

Chairman Of The Board

At S.A.C.O, we see architecture not only as the art of building but also as a language for the future—a language that finds meaning in innovation, sustainability, and respect for the earth.

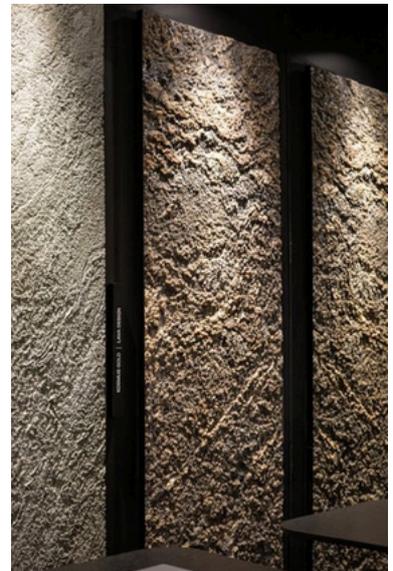

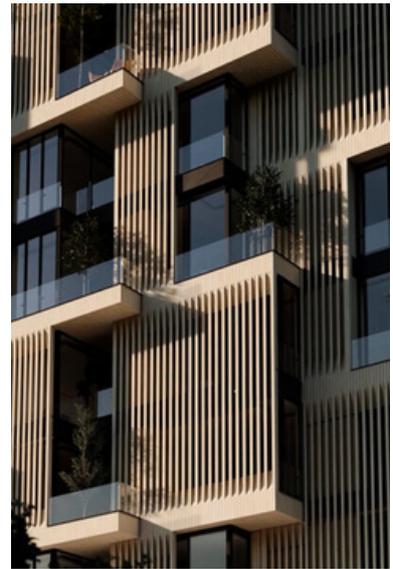

Our mission is to create spaces that connect quality, green design, and modern technologies in the service of humanity and future generations. By strengthening regional cooperation, enhancing the knowledge of architects, and offering high-quality and affordable products, we pave the way for the advancement of both industry and society.

At S.A.C.O, with a focus on entrepreneurship and export, we aim to introduce Qatar's capabilities to the world.

About Us

S.A.C.O is the first and only supplier of unique and specialized bricks and building products in Qatar and the MENA region. The company's main factory is based in Iran, and with an active distribution network in Qatar, Canada, Bahrain, Oman, and the United Arab Emirates, it has established a broad international presence.

By combining exceptional quality, advanced technologies, and smart solutions in production, design, and installation, we have earned the trust of contractors, architects, and leading developers on both regional and global projects.

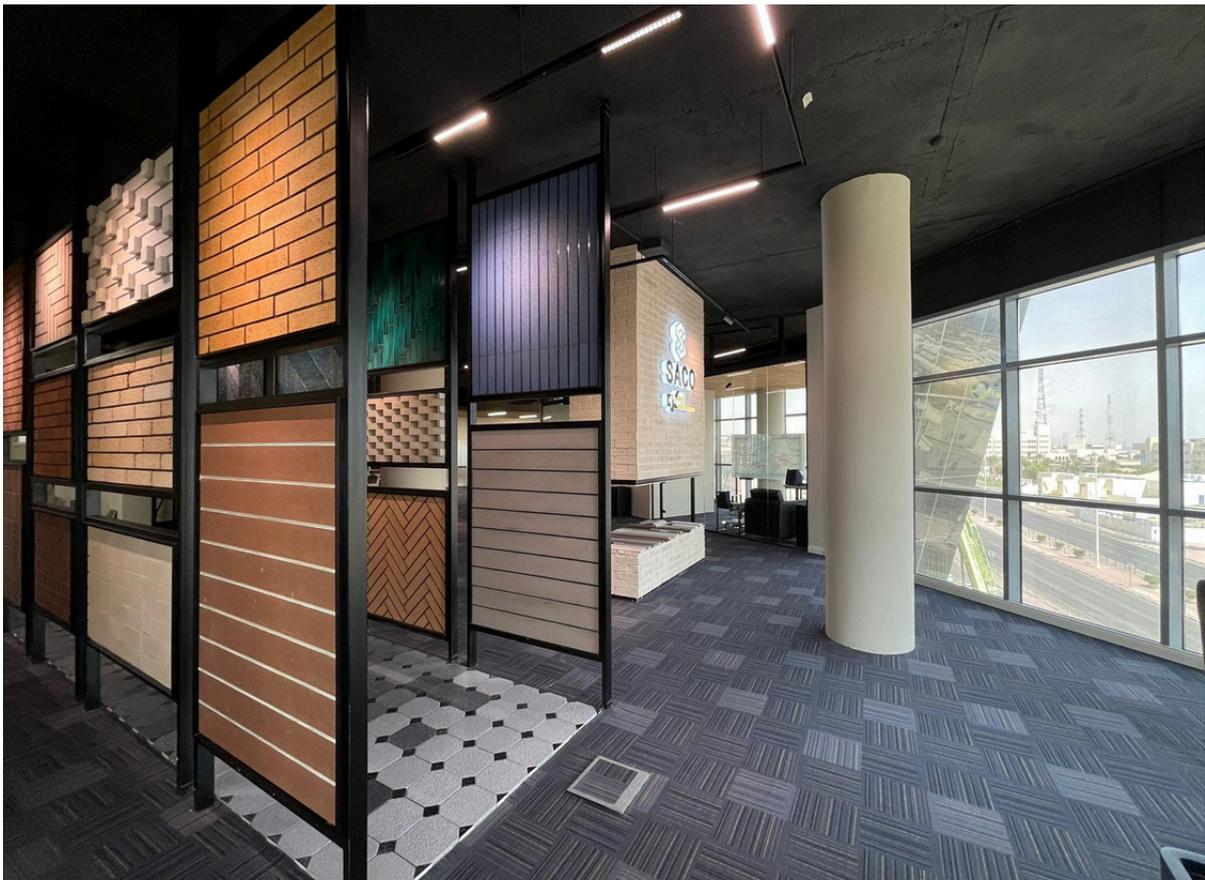

Company Overview

S.A.C.O specializes in designing and executing unique building façades using high-quality products and architectural materials. From modern structures to traditional designs, our exterior solutions reflect durability, beauty, and innovation.

We design interior spaces with character and depth, using decorative products and natural textures that bring warmth and a distinctive style to every environment. Our interior design services create spaces that are modern, enduring, and timelessly elegant.

S.A.C.O is not just a manufacturer; it is a complete ecosystem of sustainable products with the greatest variety and proprietary installation technologies, meeting the needs of both modern and traditional architecture in Arab countries and other international markets.

Vision

S.A.C.O aims to be a global leader in modern construction solutions, inspiring architects and builders with durable, beautiful, and sustainable materials. By earning customer trust and leveraging advanced technology, we deliver the highest quality and value in the shortest time.

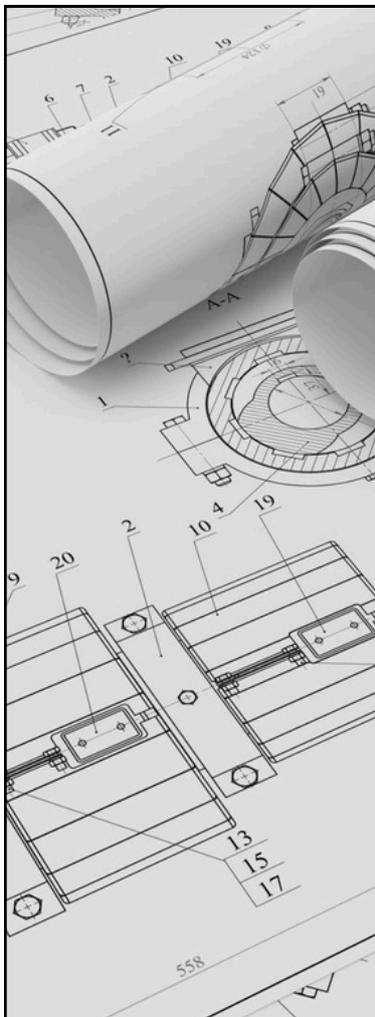

Mission

We provide the widest range of top-quality architectural products with innovation, speed, flexibility, and fair pricing. S.A.C.O is committed to fast, reliable, and valuable experiences for architects, contractors, and builders worldwide.

Ecosystem

S.A.C.O is not merely a supplier or manufacturer; it is a comprehensive ecosystem in the building materials industry, covering everything from concept and design to production, installation, and after-sales services.

Within this ecosystem, innovation, quality, variety, and smart services come together to ensure that architectural projects are executed not only faster and with superior quality, but also become enduring landmarks in cities and regions.

Innovation

Innovation is the driving heartbeat of S.A.C.O. The use of advanced technologies and artificial intelligence in design, production, and services ensures greater speed, consistent quality, and added value in every project. S.A.C.O views innovation not merely as technology, but as a combination of creativity, intelligent application, sustainability, and responsiveness to the future needs of architecture.

We believe that continuous innovation is the key path to creating a sustainable competitive advantage and constructing buildings that endure both in performance and beauty.

Key Projects

Botanic Project is being developed by Qatar Foundation, using customized S.A.C.O bricks. This unique design highlights tailored solutions that blend durability with aesthetics, making every detail stand out.

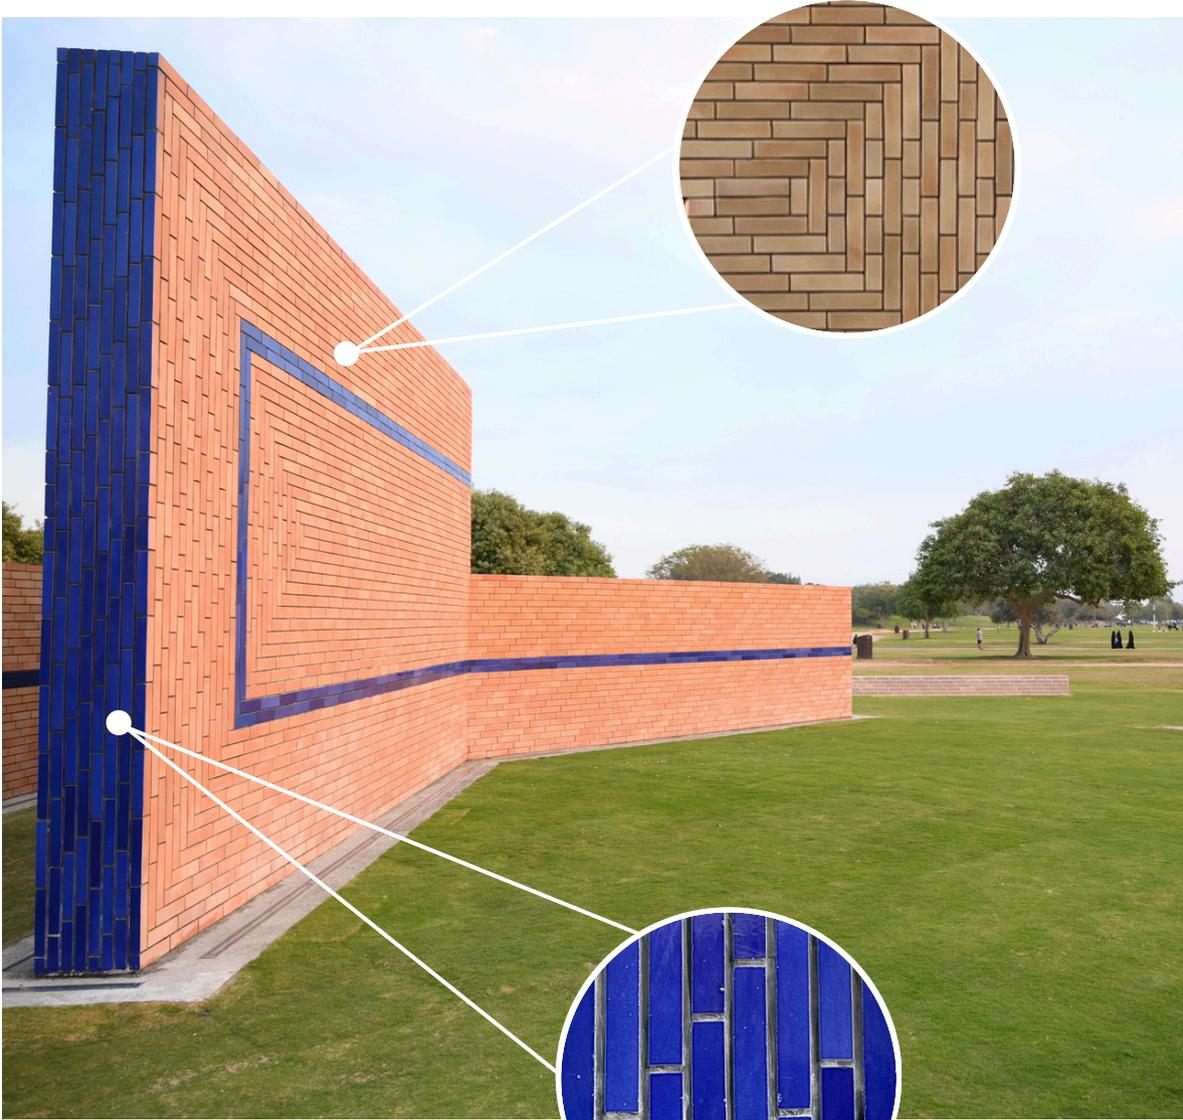

Qur'anic Botanic Garden | Qatar Foundation

Key Projects

Aspire House – Aspire Park, Doha serves as an example of the perfect blend of art and durability, alongside other construction projects in Doha and across Qatar.

Aspire House | Qatar Museum

Key Projects

Private Villa in Lusail, commissioned by Badria Kafood, is designed with customized S.A.C.O bricks. This project highlights elegance, durability, and a tailored architectural vision.

Lusail Villa | Badriya Kafood

Mood Board – Lusail Project

Why S.A.C.O

S.A.C.O is a pioneering and unique leader in Qatar and the region. We deliver the highest quality and widest variety, together with smart, customized installation solutions. S.A.C.O represents a complete ecosystem committed to environmental sustainability. Our efficiency, flexibility, fair pricing, and value creation have earned the trust of leading architects and developers.

Showroom Experience

Our S.A.C.O Showroom offers clients the opportunity to see, touch, and experience our wide range of products firsthand. From modern designs to traditional styles, our showroom is designed to inspire architects, developers, and homeowners with innovative materials and creative solutions for their projects.

To explore and experience our products firsthand, we warmly invite you to visit the S.A.C.O office and showroom.
